

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

Date of issue: 4-8-2016 Revision date: 4-8-2016 Supersedes: 18-9-2013 Version: 1.1

1.1. Product identifier	ostance/mixture and of the company/undertaking		
Product form	: Mixture		
Product name	: Finess Tuinhoutbeits transparant (Timber stain transparent)		
	[UNOFFICIAL DOCUMENT]		
Product code	: 25035060100		
Product group	: Woodstain - Vernish		
1.2. Relevant identified uses of the sub	stance or mixture and uses advised against		
1.2.1. Relevant identified uses			
Intended for general public			
Main use category	: Consumer uses, Professional use, Industrial use		
Use of the substance/mixture	: Industrial and decoration painting		
1.2.2. Uses advised against			
No additional information available			
1.3. Details of the supplier of the safety	data sheet		
Supplier	Responsible formatting SDS

## SECTION 4: First aid measures

4.1. Description of first aid measures	
First-aid measures general	: In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious place in recovery position and seek medical advice.
First-aid measures after inhalation	: Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration. Give nothing by mouth.
First-aid measures after skin contact	: Remove contaminated clothing. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.
First-aid measures after eye contact	: Remove contact lenses, irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart and seek medical advice.
First-aid measures after ingestion	: If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.
4.2. Most important symptoms and effect	ts, both acute and delayed
Symptoms/injuries	: No information is on file to date regarding acute and/or delayed post-exposure symptoms and effects.
4.3. Indication of any immediate medical	attention and special treatment needed

No additional information available.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

according to Regulation (EC) No. 1907/2006 (REACH)	
SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Suitable extinguishing media	: carbon dioxide (CO2), powder, alcohol-resistant foam, water spray.
Unsuitable extinguishing media	: Do not use a heavy water stream.
5.2. Special hazards arising from the s	ubstance or mixture
Fire hazard	: Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard. Appropriate breathing apparatus may be required.
5.3. Advice for firefighters	
Precautionary measures fire	: Cool closed containers exposed to fire with water.
Other information	: Do not allow run-off from fire fighting to enter drains or water courses.
SECTION 6: Accidental release mea	asures
	equipment and emergency procedures
6.1.1. For non-emergency personnel	. Use personal protective equipment on required
Protective equipment	: Use personal protective equipment as required.
Emergency procedures	: Do not smoke. Ventilate area. Do not breathe vapours.
6.1.2. For emergency responders	
Protective equipment	: Equip rescue crew with proper protection.
Emergency procedures	: No smoking. Ventilate area. Do not breathe vapours.
6.2. Environmental precautions	
	ify authorities if product enters sewers or public waters.
6.3. Methods and material for containn	
Methods for cleaning up	<ul> <li>Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13).</li> </ul>
Other information	: Clean preferably with a detergent - avoid use of solvents.
6.4. Reference to other sections	
See Section 7 for information on safe handling.	. See Section 8 for information on personal protection equipment. See Section 13 for disposal
information.	
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	: Keep container tightly closed. Avoid contact with skin and eyes. Avoid inhalation of vapour and spray mist. Never use pressure to empty : container is not a pressure vessel. Always keep in containers of same material as the original one. For personal protection see Section 8. Comply with the health and safety at work laws.
Hygiene measures	Smoking, eating and drinking should be prohibited in application area.
7.2. Conditions for safe storage, include	ling any incompatibilities
Storage conditions	: Store in accordance with local/national regulations.
Storage temperature	: 5 - 30 °C Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight
Prohibitions on mixed storage	: Store separately from oxidising agents and strongly alkaline and strongly acidic materials.
Storage area	: Prevent unauthorised access.
Special rules on packaging	: Containers which are opened must be carefully resealed and kept upright to prevent leakage.
7.3. Specific end use(s)	
No additional information available	
	sonal protection
SECTION 8: Exposure controls/per	
8.1. Control parameters	

No additional information available

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

### 8.2. Exposure controls

### Appropriate engineering controls:

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

### Personal protective equipment:

Protective goggles. Gloves. In case of inadequate ventilation wear respiratory protection.

#### Hand protection:

There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals. For prolonged contact, use rubber or neoprene gloves. The breakthrough time must be greater than the end use time of the product. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed. Gloves should be replaced regularly and if there is any sign of damage to the glove material. Always ensure that gloves are free from defects and that they are stored and used correctly. The performance or effectiveness of the glove may be reduced by physical/ chemical damage and poor maintenance. Barrier creams may help to protect the exposed areas of the skin, they should however not be applied once exposure has occurred

#### Eye protection:

Use safety eyewear designed to protect against splash of liquids

### Skin and body protection:

Cotton or cotton/synthetic overalls or coveralls are normally suitable. Every part of the skin which had contact with the product should have been washed thoroughly

### **Respiratory protection:**

If workers are exposed to concentrations above the exposure limit they must use appropriate, certified respirators

## **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and c	hemical properties
Physical state	: Liquid
Colour	: Different colours.
Odour	: Characteristic.
Odour threshold	: No data available
рН	: ±8,5 @ 20 °C
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: No data available
Freezing point	: 0 °C Water
Boiling point	: 100 °C Water
Flash point	: Not applicable
Auto-ignition temperature	: The product does not ignites spontaneously.
Decomposition temperature	: When exposed to heat, may decompose liberating hazardous gases
Flammability (solid, gas)	: The product is not flammable
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: No data available
Density	: 995 - 1045 kg/m³
Solubility	: Miscible with water.
Log Pow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: 16 - 18 Seconds DIN 53211; 4 mm
Explosive properties	: No dangerous reactions known.
Oxidising properties	: No data available.
Explosive limits	: No data available

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

## 9.2. Other information

VOC content

: (cat.A/e): 130 g/l (2010). This product contains max. 30 g/l VOC.

10.1. Reactivity         No dangerous reactions known.         10.2. Chemical stability         Stable under recommended storage and handling conditions (see section 7).         10.3. Possibility of hazardous reactions         Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.         10.4. Conditions to avoid         When exposed to high temperatures may produce hazardous decomposition products.         10.5. Incompatible materials         See Heading 7.         10.6. Hazardous decomposition products         Such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.         SECTION 11: Toxicological information         11.1. Information on toxicological effects         Acute toxicity <ul> <li>There are no data available on the preparation itself (This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]. This product is not hazardous but contains hazardous components)</li> <li>Skin corrosion/irritation</li> <li>Repeated or prolonged contact with the product may lead to removal of natural fats from the skin resulting in non-allergic contact dermatilis and absorption through the skin pH: ± 8.5 @ 20 °C</li> <li>Respiratory or skin sensitisation</li> <li>Not classified</li> <li>Gerim cell mutagenicity</li> <li>Not classified</li> <li>Specific target organ toxicity (repeated exposure)</li> <li>Not classified</li> <li>Specific target organ toxicity (repeated exposure)</li> <li>Not classified</li> <li>Specific target organ toxicit</li></ul>				
No dangerous reactions known.          10.2.       Chemical stability         10.2.       Chemical stability         10.3.       Possibility of hazardous reactions         Keep away from oxidising agents, strongly ald materials in order to avoid exothermic reactions.       10.4.         10.4.       Conditions to avoid         When exposed to high temperatures may produce hazardous decomposition products.       10.5.         10.6.       Hazardous decomposition products         Ster heading 7.       10.6.         11.1.       Information monoxide and dioxide, smoke, oxides of nitrogen etc.         SECTION 11.1 TOXICOlogical information       10.5.         State toxicity       :       There are no data available on the propagation iball (This mixtue is classified as not hazardous according to regulation (EC). 1272/2008 [CLP]. This product is not hazardous but contains hazardous conding to regulation (EC). 1272/2008 [CLP]. This product fis not hazardous but contains hazardous conding to regulation (EC). 1272/2008 [CLP]. This product is not hazardous but contains hazardous conding to regulation (EC). 1272/2008 [CLP]. This product is not hazardous but contains hazardous conding to regulation (EC). 1272/2008 [CLP]. This product is not hazardous but contains hazardous contains hazardous contain the skin regulation (EC). 1272/2008 [CLP]. This product is not hazardous to the reaction is not alsoption through the skin regulation (EC). 1272/2008 [CLP]. This product is not hazardous to the regulation (EC). 1272/2008 [CLP]. ## 14.6. Special precautions for user

Special transport precautions

: Transport within user's premises: Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

#### - Overland transport Transport regulations (ADR) : This preparation is not classified as dangerous according to international transport regulations, (ADR). - Transport by sea Transport regulations (IMDG) : Not determined. - Air transport Transport regulations (IATA) : Not determined. - Inland waterway transport Transport regulations (ADN) : Not determined.

- Rail transport		
Transport regulations (RID)	: Not determined.	
14.7. Transport in bulk accord	ling to Annex II of MARPOL and the IBC Code	
IBC code	: Not determined.	
Ship type	: Not determined.	
Pollution category	: Not determined.	

## **SECTION 15: Regulatory information**

Safety, health and environmental regulations/legislation specific for the substance or mixture 15.1.

#### 15.1.1. **EU-Regulations**

Contains no REACH substances with Annex XVII restrictions Contains no substance on the REACH candidate list Contains no REACH Annex XIV substances

VOC content

: (cat.A/e): 130 g/l (2010). This product contains max. 30 g/l VOC.

#### 15.1.2. National regulations

No additional information available

#### 15.2. **Chemical safety assessment**

No chemical safety assessment has been carried out

### SECTION 16: Other information

Indication of changes:			
1.1	Product code	Modified
